

## Elections to Council Nucleus and Nominating committee 2024-2026

### Motivation letter: What would you do if successfully elected?

Dear colleagues,

I am writing to express my sincere interest in the position of Communications and Young Community Coordinator of the ESC Council on Stroke. With great enthusiasm and your support, I aim to contribute to the advancement of our collective goals through effective communication, community engagement, and strategic utilization of social media platforms.

My vision for this role encompasses two primary objectives.

Firstly, I am committed to fostering a culture of collaboration and shared purpose among our members. By promoting constant and effective interaction between Members and the Board, I would like to encourage people to share ideas and bring out the Community's specific needs. Indeed, I believe teamwork is key to making the Council grow, ultimately delivering better patient care.

Secondly, I am keenly focused on strengthening the council's presence across social media platforms, with the double benefit of reaching a large number of healthcare professionals potentially willing to join the Council and facilitating access to high-quality, up-to-date scientific knowledge. Indeed, during the last few years, I gained considerable experience in this field as social media editor for peer reviewed journals (e.g.: JACC: Asia and European Journal of Internal medicine) and as ESC and EHRA Congress official social media ambassador.

In addition, I will bring experience in managerial and organizational roles and clinical research experience, with a particular emphasis on atrial fibrillation, atrial high-rate episodes, atrial cardiomyopathy, and stroke.

Should I be appointed, I am going to show steadfast commitment to my duties and repay the trust placed in me. Passion, energy and dedication to hard work will never be lacking.

Modena, 27<sup>th</sup> March 2024

I hereby declare my willingness to work as a volunteer for the ESC Council on Stroke
